Innovation
Video 1

Certainly, I'm very proud to announce today that we are going forward with deploying our innovation plan for CIMA+.

Innovation is a catalyst to our growth plan and we created a committee last year, with an innovation manager as well. So we will deploy the program in the next several weeks.

[Yannick Maltais – Transcript on video]

Any company that will want to be sustainable over time needs to be adapting to changes. This is of paramount importance that CIMA+ does use the technology, innovations and processes to make sure that we resolve complex problems for our clients and make those solutions much simpler.

So innovation is really a catalyst to this growth and is very important for CIMA+.
